Subject: RE: nlr letter

The staffer just called me back.

I've been informed that they do not have records for former Members - something that is surprising to me, but ok.

She asked that we clarify that we were not looking for internal communications which would be exempt from disclosure anyway. I said ok on that.

On the fee waiver issue rather than doing a full blown analysis of they are just going to provide the docs free of charge because they don't think that there will be a lot of them.
